

Low Dose **ASPIRIN, 81mg**

Procure Enteric-coated Aspirin Tablets are a specialized formulation of aspirin designed to minimize stomach irritation and ulcers by releasing the medication in the intestines instead of the stomach. It is commonly used for its anti-inflammatory, analgesic, and antiplatelet properties and can be prescribed for various conditions.

These enteric-coated aspirin should not be crushed or chewed, as doing so would compromise the enteric coating and increase the risk of stomach irritation. Instead, it should be swallowed whole with water or as directed by a healthcare professional.

Benefits:

- Enteric-coated aspirin, minimizes stomach irritation and ulcers[†]
- Low Dose Aspirin 81mg
- Anti-inflammatory, analgesic, and antiplatelet properties[†]
- Pain Reliever (NSAID)
