

## 70% Alcohol Hand Sanitizing Wipes

**ProCure Hand Sanitizing Wipes** provide quick, effective protection when soap and water aren't available. Formulated with 70% alcohol, they kill up to 99.99% of most common germs while leaving hands soft and refreshed. Each wipe is enriched with aloe and Vitamin E to help moisturize and soothe skin. The durable nonwoven cloth delivers thorough cleansing without rinsing, making it ideal for use after patient contact.

Conveniently packaged in a dispensing canister with a snap-close lid to maintain freshness and reduce cross-contamination, these generously sized wipes are perfect for healthcare, office, and everyday use.
