

Sterile Saline Wound Wash

ProCure Sterile Saline Wound Wash is a 0.9% sodium chloride, drug-free, preservative-free solution designed for gentle wound cleansing and irrigation. This sterile solution helps remove dirt, debris, and foreign material from minor cuts, scrapes, and burns, supporting a clean environment for optimal healing. Easy to use, it delivers a steady stream to irrigate the wound and can be followed with an appropriate dressing. It provides a safe and effective way to promote first-aid wound care.

*Easy Spray
Application*
