

Sterile Wound Closer Strips

ProCure Wound Closure Strips are flexible, breathable adhesive strips designed to gently secure and support wound edges for proper healing. The hypoallergenic adhesive provides a comfortable, conformable fit while minimizing scarring and allowing the skin to breathe. Sterile and easy to apply, they're ideal for closing and protecting small cuts, lacerations, and surgical incisions.

Features & Benefits:

- Flexible, breathable design promotes natural healing
- Hypoallergenic adhesive for gentle, comfortable wear
- Helps minimize scar formation
- Sterile and easy to apply
- Ideal for securing small cuts, lacerations, and surgical incisions
