

CRITICAL+ *Liquid Protein Supplement*

ProCure CRITICAL+ is a high-potency liquid protein supplement providing a blend of hydrolyzed collagen and whey protein, formulated with L-Arginine, Vitamin C, Hyaluronic Acid, Zinc, and Copper to support protein metabolism and the maintenance of healthy connective tissues. This advanced formula is designed for individuals with elevated protein and micronutrient needs during periods of physical stress or nutritional recovery.[†] With a smooth, nectar-like texture and a naturally honey-colored appearance, this dye-free supplement delivers powerful nutritional support in a delicious cherry vanilla flavor. This formulation is derived from a hydrolyzed collagen and whey protein blend. Whey is derived from milk; however, the whey used in this product does not contain lactose, making it suitable for individuals who are lactose intolerant.

ProCure CRITICAL+ is suitable for both oral intake and enteral administration when directed by a healthcare professional.

Advanced Formula

Features & Benefits:

- 17g of easily absorbed protein per 1 fl. oz.
- Contains Vitamin C, Zinc, and Copper to support tissue building and antioxidant protection[†]
- With Hyaluronic Acid to support tissue hydration and healthy skin structure[†]
